1. INTRODUCTION

Social Media Marketing (SMM) refers to the strategic use of digital platforms to promote brands, institutions, services, and individuals. In the education sector, social media plays a critical role in enhancing institutional visibility, student engagement, and industry connectivity.

For institutions like M. H. Saboo Siddik College of Engineering (MHSSCE), social media platforms serve as powerful communication channels to promote academic programs, highlight campus life, and engage with students, alumni, and industry partners. Through platforms like Instagram, Facebook, and LinkedIn, the institution can showcase achievements, share updates about events such as hackathons and tech fests, and highlight placement opportunities with companies like TCS and Infosys. These platforms also help in building the college's brand image, attracting prospective students, and maintaining transparency by regularly sharing information about academic activities, facilities, and success stories.

2. SOCIAL MEDIA STRATEGY

A structured social media strategy ensures consistent communication and measurable growth. The strategy is developed using the following framework:

2.1 Objectives

The primary objectives of the social media strategy for M. H. Saboo Siddik College of Engineering (MHSSCE) are to increase institutional visibility and brand awareness, promote the achievements of the Computer Engineering Department, highlight placements and industry collaborations, enhance student engagement, and generate admission leads. These objectives are designed following the **SMART model** (Specific, Measurable, Achievable, Relevant, and Time-bound) to ensure effective and result-oriented outcomes.

2.2 Target Audience

Instagram Audience:

- Prospective students (16–22 years)
- Current students and parents
- Junior college students

LinkedIn Audience:

- Alumni and recruiters
- Industry professionals and faculty members
- Academic collaborators

2.3 Platform-Specific Strategy

Instagram Strategy

Instagram focuses on visual storytelling and student engagement. Content types include Reels (campus highlights, achievements), lab activities, hackathons and events, student testimonials, and placement highlights. Posting frequency: 3–4 posts per week + 1–2 reels per week. Tone: Inspirational, youthful, and engaging.

LinkedIn Strategy

LinkedIn focuses on professional credibility and industry networking. Content types include placement announcements, faculty research publications, industry partnerships, alumni success stories, and technical seminars. Posting frequency: 2–3 posts per week. Tone: Professional, achievement-oriented, and informative.

2.4 Content Pillars

To maintain consistency, the department uses the following content pillars:

- Academic Excellence
- Student Innovation
- Placement & Career Growth

- Industry Exposure
- Campus Life

These pillars ensure a balanced and purposeful digital presence across all platforms.

3. KEY PERFORMANCE INDICATORS (KPIs) AND METRICS

Key Performance Indicators measure the effectiveness of the social media strategy. The table below outlines the primary KPIs, their metrics, and the applicable platforms:

KPI	Metric	Platform
Reach	Number of users who saw the content	Instagram & LinkedIn
Engagement Rate	(Likes + Comments + Shares) / Reach	Both
Follower Growth	Monthly % increase in followers	Both
Profile Visits	Number of profile views	Instagram
Click-Through Rate (CTR)	Link clicks per post	LinkedIn
Lead Generation	Admission inquiries received	Both

Monitoring these metrics helps in evaluating performance and refining the content strategy over time. Regular analytics reviews (weekly/monthly) are recommended to track trends and adapt content accordingly.

POST-LAB

Exercise 01: Reel Creation for Positive Publicity

A promotional reel was created to highlight the campus infrastructure, laboratory facilities, industry seminars, placement opportunities, and student unity at M.H. Saboo Siddik College of Engineering, Computer Engineering Department.

Key highlights of the reel:

- Duration: 45 seconds
- Platform: Instagram Reels
- Voiceover: AI-generated motivational narration
- Visuals: Campus, labs, seminars, students
- CTA: Follow the page for updates

Exercise 02: Design of Three Social Media Posts

Three posts were designed focusing on different aspects of the M. H Saboo Siddik College of Engineering and its Computer Engineering Department.

Post 1 — Campus Life & Opportunities – The first post showcases student life beyond academics, including clubs like IEEE, ACM, and CSI, placement opportunities with top recruiters such as TCS and Infosys, higher studies support (GRE, IELTS), and entrepreneurship events like hackathons and bootcamps.

Post 2 — Computer Engineering Department Overview – The second post focuses on the academic structure of the Computer Engineering program, highlighting a 4-year degree, dedicated labs, hackathons, seminars, research opportunities, and strong placement outcomes with companies like Microsoft and Accenture.

Post 3 — College Achievements & Facilities – The third post presents the college's credentials such as NAAC A+ accreditation, NBA approval, global collaborations, active student clubs, higher study support, placement records, and major campus events like Ambrosia and hackathons.

5. CONCLUSION

The implementation of a structured social media strategy enhances institutional branding and digital outreach for M.H. Saboo Siddik College of Engineering. By utilizing Instagram for engagement and LinkedIn for professional visibility, the Computer Engineering Department can effectively communicate its strengths to students, parents, recruiters, and alumni.

Consistent content planning aligned with defined content pillars, regular performance measurement using KPIs, and creative visual storytelling — as demonstrated through the reel and three posts — contribute to sustainable digital growth and an improved institutional reputation.
